PREETI SINGH

(Full Stack Developer)

Summary

Having **2 years** of experience as **ReactJs Developer** with hands-on designing & implementing **highly responsive user interface** components by deploying **React concepts**. Good Expertise in analyzing the Document Object Model (**DOM**) **Layouts, DOM Functions, and JavaScript functions, RESTful web services** and writing **APIs in NodeJS**. A collaborative team player with ability to deal with people, **Strong problem solving & Technical abilities** with proficiency in grasping new technical concepts quickly and utilizing them in an effective manner.

Work History

Software Engineer (Full time)

Feb 2023 - Present

(Propplayers Infrastructure Pvt Ltd , Gurugram)

➤ Responsibilities

- Worked on a full stack application where I was responsible for both Frontend and Backend following the Agile model.
- Contributed to the continual improvement of the design and development process, maintaining strong aspects while researching and providing recommendations for areas of improvement.
- Identified web-based user interactions and developed highly-responsive user interface components via React concepts

Project - PropplayersV2 (ReactJs | Nodejs | MERN | JEST | Tailwind | GraphQL | AWS S3,IAM,SES | RESTful API)

- A medium to connect buyers and sellers according to their needs to find a great deal in the **real estate market**.
- Used **React JS** for templating for faster compilation and developing reusable components, **Redux** for state management , and writing APIs in **Nodejs** serving data for frontend, **tailwind CSS** for designing and responsiveness and **Trello** for Task Management
- To fetch specific details for properties used **GraphQL queries** and **Apollo Client GraphQL** library
- Worked on authentication , authorization with refresh tokens and route protection(both server and client) using **JWT**
- **Integration** front-end development with back-end system, Called the **RESTful web services calls** for POST,PUT,GET,DELETE Methods
- Created user dashboard for both buyers and sellers with ads update, delete and load more feature, implemented the Drag and Drop functionality using **React-Draggable**, and used **flickity** is for creating carousel-images
- Added advance search with multiple filters including geolocation, multiple image upload with **AWS S3**
- Worked on sellers' public profile to fetch all real estate agent with public profile.
- User registration and login with Email Configuration using **AWS SES (server)**
- worked with backend engineers to optimize existing API calls to create efficiencies by deprecating unneeded API calls

Front End Developer (Internship)

Aug 2022 - Feb 2023

(Highbreed Corp , Gurugram)

➤ Responsibilities

- Worked as part of the **core platform team**
- Collaborated with senior team members to upgrade the website and worked on an **Agile (Scrum) Development Team** to deliver regular updates to business team and project managers and provided end-to-end solutions for clients.
- Designed and **implemented front-end enhancements** to guarantee optimal functionality and user experience.
- Used **Jira** for Task Management

Project (Mrkt365) (ReactJS | NextJS | Tailwind | JEST)

- Worked on the **company's main product** and optimized code.
- A **marketplace** to connect freelancers and interns, Businesses with Businesses.
- Developed **various screens for front end part** of many components using various predefined modules from npm and build scalable and reusable components using **ReactJS** and **redux** for state management, **typescript** for type safety and **tailwind** for styling.
- Handled cross browser/platform compatibility issues(IE, Firefox) on both windows.

Web Developer (Freelance)

Jan 2021 - Jul 2022

(Remote)

- Designed, developed and maintained **15+** static websites for multiple clients.
- Worked on **3 major projects** individually as well as with a team.
- Preparing for **IB & UPSC**.

Project 1 (Video Streaming Platform) (ReactJS | NextJS | Tailwind)

- A video streaming platform for a teacher having a bunch of students connected with him online.

- Developed and maintained the frontend of this project using ReactJS, NextJs and Tailwind CSS.
- One of the standout features of this app is the search function, which not only provides suggestions as you type, but also includes debouncing to reduce the number of API calls made, resulting in improved performance and live chat feature that utilizes API polling to ensure efficient performance. The app is smart enough to remove older comments from the chat to avoid app freezing when a lot of chat has taken place. Users can add comments to the chat in real-time.
- To fetch videos, I used the APIs provided by the backend developer, and for video playback, I incorporated iframes. The app also supports n-level nested comments.

Project 2 (CoreFitPlus) (HTML | CSS | JS | ReactJS)

- A gym website initially created using wordpress then later on developed again using ReactJs.
- Developed and maintained this website individually. Improved performance over the time.

Project 3 (Sg-lifestyle.com) (HTML5 | CSS | JS | Wordpress | AJAX | PHP)

- Developed and maintained a WordPress ecommerce website using WooCommerce,
- Implemented product catalog management, including product descriptions, images, and pricing, Configured payment gateways and shipping methods,
- Design a streamlined order processing workflow that guides customers through the checkout process seamlessly,
- Integrate secure payment gateways to accept online payments from various credit cards and digital wallets,
- Provide order tracking and status updates to keep customers informed about their purchases,
- Provided ongoing website maintenance and support.

Content Writer/Moderator (Freelance)

Oct 2018 - Dec 2020

(Remote)

- Created and edited high-quality content for a variety of audiences. Researched, monitored and user-generated content on social media and other online platforms.
- Utilized analytics tools to track content performance, identify trends, and make data-driven decisions to enhance content strategy and user experience

Position Of Responsibilities

- Anchor in School Functions || Coordinated College Fests and organized small gatherings

Education

- B-Tech (CSE) (2014 – 2018) – Phonics Group of Institutions, Roorkee || Master's (History) (2019-2021) - IGNOU, Dehradun
- Class XII(2013-2014) - PCM - SVM, Haridwar || Class XI (2011-2012)- General – CFA, Haridwar

Skills

- **Languages:** C , Javascript Python, C++, Core Java, SQL, Html/CSS, DSA
- **Framework:** React.js/Redux/Redux Toolkit, Node.js , Express.js, Bootstrap, Tailwind CSS,
- **Tools/OS/Platforms:** Vs Code, Git, Windows , Linux, Netbeans, SublimeText , Notepad++

Certifications & Courses

- Awarded with an **appreciation certificate** for the hard work and **finding the efficient solutions** in the project.
- Web Development Bootcamp - Udemy || Python Course- Udemy || Core Java - Mahendra Infoways (Haridwar)
- GUVI AI-FOR-INDIA-EVENT

Area of Interests

- Software Development || Problem Solving || Reading || Writing || Music
