EDUCATION —

Masters **-** History
IGNOU | 2021 |

BTech - Computer Science and Engineering
Phonics Group of Institutions, Roorkee |2018|

Intermediate **-** PCM
Saraswati Vidhya Mandir ,Haridwar
|2014 |

High School - General
Children's Foundation Academy, Haridwar|2012|

SKILLS —

Languages - C, Javascript, Python, C++, Core Java,
SQL, Html/CSS

Framework- React.js/Redux/Redux Toolkit, Node.js
,Express.js, Bootstrap, Tailwind CSS,

Tools - Vs Code, Git, Netbeans

EXTRA-CURRICULAR—

Anchor - during School Days
Coordinated college fests and Organized small
gatherings.

ACHIEVEMENTS —

Awarded with an appreciation certificate for the hard
work and finding the efficient solutions in the project.

AREA OF INTERESTS —

Software Development, Problem Solving, Writing,
Reading, Music.

SUMMARY :

Experienced Software Engineer having **2+ years** of experience as a React JS Developer. Good Expertise in analyzing the Document Object Model **(DOM)** Layouts, DOM Functions, and **Java Script functions** and **Writing APIs in NodeJS**. Experience in using **React JS Functional Components**. Ability to deal with people, **Strong problem solving & Technical abilities** with **proficiency in grasping** new technical concepts quickly and utilizing them in an effective manner.

WORK EXPERIENCE :

Feb'23 - Dec'23   **Software Engineer** (Full-Time)   *Gurugram*
[PropPlayers Infrastructure Pvt. Ltd.]
- Worked on the company's v2 website.
- Developed the whole UI of the project using ReactJS Functional Components, Forms, Events, Router and Hooks and tailwind for styling.
- Collaborated with clients to gather requirements, produce plans and improve designs for usability and functionality.
- Contributed to the continual improvement of the design and development process, maintaining strong aspects while researching and providing recommendations for areas of improvement.

Project - **Propplyayers**
- A medium to connect buyers and sellers according to their needs so they can find a great deal in the real estate market.
- Used **React JS** for templating for faster compilation and developing reusable components,Handled APIs, Redux Toolkit for state management ,tailwind CSS for designing and responsiveness and writing APIs in **Node.js** serving data for frontend
- Worked on authentication , authorization and route protection(both server and client) using JWT. Integrated front-end development with a back-end system.
- Created user dashboard for both buyers and sellers with ads update, delete and load more features.Added advanced search with multiple filters.
- Worked on sellers' public profile to fetch all real estate agents with public profile.

Aug'22 - Feb'23   **Front End Developer** (Internship)   *Gurugram*
[Highbreed Corp]
- Worked on the company's main product and optimized code.
- Developed various screens for front end part of many components of React JS and used various predefined modules from npm.
- Collaborated with senior team members to upgrade the website..
- Handled cross browser/platform compatibility issues(IE, Firefox) on both windows. Worked closely with an agile team and provided end-to-end solutions for clients.
- Used Jira for Task Management.

Project: **Mrkt365**
- A marketplace to connect business with freelancers and interns.
- Utilized **ReactJS** to build high-quality, scalable and reusable components and redux for state management, and tailwind for styling.

Jul'21 - Jul'22   **Web Developer (**Freelancer**)**
Project : **Video Streaming Platform**   **(Dec'21 - Jul'22)**
Developed UI of the project using **ReactJS**. One of the standout features of this app is the search function, which not only provides suggestions as you type, but also includes debouncing to reduce the number of API calls made, resulting in improved performance. Additionally, the search function caches suggestions in the Redux store, allowing for faster retrieval of previously searched results. To fetch videos, I used the APIs provided by the backend developer, and for video playback, I incorporated iframes. The app also supports n-level nested comments.

Project: **Sg-lifestyle (Jul'21 - Dec'21)**
Ecommerce website using **Wordpress**. Implemented product catalog management in wordpress, including product descriptions, images, and pricing. Design a streamlined order processing workflow that guides customers through the checkout process seamlessly. Provide order tracking and status updates to keep customers informed about their purchases. Managed customer orders and inquiries.

Oct'18 - Jul'21   **Content Writer/Moderator (**Freelancer**)**
- Created and edited high-quality content for a variety of audiences**.** Researched, monitored and user-generated content on social media and other online platforms.
- Utilized analytics tools to track content performance.
